MARINE OUTBOARD FOUR-STROKE ENGINE OIL

Shell
ADVANCE
MARINE

OUR **ACTIVE CLEANSING TECHNOLOGY** HELPS TO KEEP YOUR OUTBOARD ENGINES CLEANER, BETTER PROTECTED AND RUNNING MORE EFFICIENTLY.

Shell Advance Marine Premium Outboard 4T 10W-40 is a semi-synthetic oil featuring an additive pack containing active cleansing agents that help to prevent dirt particles from sticking together to form deposits.

As your speedboat or other gasoline-fuelled leisure craft has been carefully engineered, it is important to use lubricants that have been designed to protect engines and keep them working efficiently.

THE VALUE TO YOU

The formulation contains active cleansing technology and is designed to

- **protect your engine** - extend the life of your engine's critical parts
- **keep your engine cleaner** - a cleaner engine is more responsive and provides more power
- **reduce noise from your engine** - for a quieter ride.

SPECIFICATIONS AND APPROVALS

■ API SM

For a full listing of equipment approvals and recommendations, please consult your Shell Marine technical representative.

TYPICAL PHYSICAL CHARACTERISTICS

Shell Advance Marine Premium Outboard 4T

Density at 15°C, kg/m ³ (ASTM D4052)	858
Kinematic viscosity at 40°C, mm ² /s (ASTM D445)	89
Kinematic viscosity at 100°C, mm ² /s (ASTM D445)	14.3
Viscosity index (ASTM D2270)	167
Flash point, °C (ASTM D92)	230
Pour point, °C (ASTM D97)	-33

THE PERFECT MATCH

To maximise the performance of your speedboat or other gasoline-fuelled leisure craft, use a Shell Spirax oil in the gear system in addition to a Shell Advance Marine Premium Outboard oil in the engine.
